

SHAKE WELL BEFORE USING • AGITE BIEN ANTES DE USAR

# DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. STOP. READ ENTIRE LABEL BEFORE EACH USE.

**USE RESTRICTIONS** • Apply this product only as specified on this label. • Do not contaminate food or feedstuffs. • This product is for indoor residential use only. • Do not use in aircraft cabins. • For use only when building has been vacated by human beings and pets. • Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the treated area during application. • Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosols, vapors, and/or mists have dispersed. Wait two (2) hours after application, and then open windows, vents and doors for two (2) hours. If an odor is still detected, additional ventilation is required. • Do not use in food areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where food is served, such as dining rooms, but excluding areas where foods may be prepared or held. Prior to space spray applications, cover or remove food, and cover food processing surfaces or clean after treatment and before use. Do not apply more than 1 time per day. • Remove pets, birds, and cover fish aquariums before use.

**PESTICIDE RESISTANCE MANAGEMENT** • Hot Shot® Bedbug & Flea Fogger contains a Group 7C insecticide. Any insect population may contain individuals naturally resistant to Hot Shot Bedbug & Flea Fogger and other Group 7C insecticides. The resistant individuals may dominate the insect population if this group of insecticides is used repeatedly in the same fields. Appropriate resistance management strategies should be followed. • To delay insecticide resistance, consider: Avoiding the consecutive use of Hot Shot Bedbug & Flea Fogger, or other Group 7C insecticides that have a similar target site of action, on the same insect species. • Basing insecticide use on a comprehensive IPM program. • Monitoring treated insect population for loss of field efficacy. • Contacting your local extension specialist, certified crop advisers, and/or manufacturer for insecticide resistance management and/or IPM recommendations for the specific site and resistance pest problem.

**To Use This Product Correctly** • One canister of fogger will treat a room up to 16 ft x 16 ft with an 8 ft ceiling or 2,000 cubic ft of unobstructed space. DO NOT use more than one fogger per room. DO NOT use in small, enclosed spaces such as closets and cabinets or under counters or tables. DO NOT use in a room 5 ft x 5 ft or smaller; instead, allow fog to enter from other rooms. Use of a fogger in an enclosed space may cause the product to explode, resulting in injury to people or damage to property.

**BEFORE YOU FOG** • Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment and food preparation surfaces, or wash them before use. Remove pets and birds, cover and turn off fish aquariums before activating canister. Shut off all exhaust fans and close all windows, doors, and ventilators. Turn off ALL ignition sources such as pilot lights (shut off gas valves), other open flames or running electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc.). Call your gas utility or management company if you need assistance with your pilot lights. Cover wood floors and wood furniture in the immediate area around fogger with newspapers or a drop cloth. Open cabinets, cupboards, drawers, closets, and doors in areas to be treated. Place a chair, small table, or stand in the center of the room to be treated, and cover with newspaper. For best results, treat all infested areas. • Fill out and place hang tag on the door to the treated area to alert family and others with access to the treated area not to enter for two (2) hours.

**TO START FOGGING** • SHAKE WELL BEFORE USE. KEEP CONTAINER UPRIGHT. Immediately before activating canister, complete the door hang tag by filling in the time and date to instruct people not to enter the treated area (premises) for at least two (2) hours following the time of activation. Hang the tag on the door to the entrance. Point the canister away from face and eyes when releasing (canister sprays straight up), to lock valve in open position for automatic discharge, press valve button down firmly, until it snaps into place. Once the canister has been activated, place the canister on the chair, small table, or stand (that is covered by newspaper) in the center of the room to be treated.

**DO NOT remain in treated area. Vacate the treated house, individual apartment unit or other structure immediately. DO NOT RE-ENTER FOR TWO HOURS.**

**AIRING OUT** • Wait two (2) hours after application, then open windows, vents and doors for two (2) hours. If an odor is still detectable, additional ventilation is required. • For more effective control of storage pests and cockroaches, open all cupboard doors and drawers for better penetration of fog. Remove all infested foodstuffs and dispose of in outdoor trash. For flea and tick control, thoroughly vacuum all carpeting and upholstered furniture, along baseboards, under furniture and in closets. Put vacuum bag into a sack and dispose of in outside trash. Mop all hard floor surfaces.

**STORAGE AND DISPOSAL** • Do not contaminate water, food, or feed by storage and disposal. • Pesticide Storage: Store this product in a cool, dry (preferably locked) place away from heat or open flame, and in an area that is inaccessible to children and animals. Container Disposal: Do Not Puncture or Incinerate! If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

**FIRST AID** • IF ON SKIN OR CLOTHING • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a Poison Control Center or doctor for treatment advice. • Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies, or pesticide concerns), you may call 1-800-917-5431.

**PRECAUTIONARY STATEMENTS • HAZARDS TO HUMANS AND DOMESTIC ANIMALS • CAUTION.** Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

**Physical or Chemical Hazards** • Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. This product contains a highly flammable ingredient. It may cause a fire or explosion if not used properly. Follow the Directions for Use on this label very carefully.

**NOTICE:** To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**STOP READ ENTIRE LABEL BEFORE EACH USE.**

## USE RESTRICTIONS

- Apply this product only as specified on this label.
- Do not contaminate food or feedstuffs.
- This product is for indoor residential use only.
- Do not use in aircraft cabins.
- For use only when building has been vacated by human beings and pets.
- Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the treated area during application.
- Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosols, vapors, and/or mists have dispersed. Wait two (2) hours after application, and then open windows, vents and doors for two (2) hours. If an odor is still detected, additional ventilation is required.
- Do not use in food areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where food is served, such as dining rooms, but excluding areas where foods may be prepared or held. Prior to space spray applications, cover or remove food, and cover food processing surfaces or clean after treatment and before use. Do not apply more than 1 time per day.
- Remove pets, birds, and cover fish aquariums before use.

## PESTICIDE RESISTANCE MANAGEMENT

Hot Shot® Bedbug & Flea Fogger contains a Group 7C insecticide. Any insect population may contain individuals naturally resistant to Hot Shot Bedbug & Flea Fogger and other Group 7C insecticides. The resistant individuals may dominate the insect population if this group of insecticides is used repeatedly in the same fields. Appropriate resistance management strategies should be followed.

To delay insecticide resistance, consider:

- Avoiding the consecutive use of Hot Shot Bedbug & Flea Fogger, or other Group 7C insecticides that have a similar target site of action, on the same insect species.
- Basing insecticide use on a comprehensive IPM program.
- Monitoring treated insect population for loss of field efficacy.
- Contacting your local extension specialist, certified crop advisers, and/or manufacturer for insecticide resistance management and/or IPM recommendations for the specific site and resistance pest problem.

## To Use This Product Correctly

One canister of fogger will treat a room up to 16 ft x 16 ft with an 8 ft ceiling or 2,000 cubic ft of unobstructed space. DO NOT use more than one fogger per room. DO NOT use in small, enclosed spaces such as closets and cabinets or under counters or tables. DO NOT use in a room 5 ft x 5 ft or smaller; instead, allow fog to enter from other rooms. *Use of a fogger in an enclosed space may cause the product to explode, resulting in injury to people or damage to property.*

For more effective control of storage pests and cockroaches, open all cupboard doors and drawers for better penetration of fog. Remove all infested foodstuffs and dispose of in outdoor trash.

For flea and tick control, thoroughly vacuum all carpeting and upholstered furniture, along baseboards, under furniture and in closets. Put vacuum bag into a sack and dispose of in outside trash. Mop all hard floor surfaces.

## BEFORE YOU FOG

Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment and food preparation surfaces, or wash them before use. Remove pets and birds, cover and turn off fish aquariums before activating canister. Shut off all exhaust fans and close all windows, doors, and ventilators.

Turn off ALL ignition sources such as pilot lights (shut off gas valves), other open flames or running electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc.). Call your gas utility or management company if you need assistance with your pilot lights. Cover wood floors and wood furniture in the immediate area around fogger with newspapers or a drop cloth. Open cabinets, cupboards, drawers, closets, and doors in areas to be treated. Place a chair, small table, or stand in the center of the room to be treated, and cover with newspaper. For best results, treat all enclosed areas.

Fill out and place hang tag on the door to the treated area to alert family and others with access to the treated area not to enter for two (2) hours.

## TO START FOGGING

SHAKE WELL BEFORE USE. KEEP CONTAINER UPRIGHT. Immediately before activating canister, complete the door hang tag by filling in the time and date to instruct people not to enter the treated area (premises) for at least two (2) hours following the time of activation. Hang the tag on the door to the entrance. Point the canister away from face and eyes when releasing (canister sprays straight up). To lock valve in open position for automatic discharge, press valve button down firmly, until it snaps into place. Once the canister has been activated, place the canister on the chair, small table, or stand (that is covered by newspaper) in the center of the room to be treated.

**DO NOT remain in treated area. Vacate the treated house, individual apartment unit or other structure immediately.**

**DO NOT RE-ENTER FOR TWO HOURS.**

## AIRING OUT

Wait two (2) hours after application, then open windows, vents and doors for two (2) hours. If an odor is still detectable, additional ventilation is required.

## MODO DE EMPLEO

Se considera una violación a la ley federal usar este producto de una manera que no sea la indicada en la etiqueta.

### ALTO LEA TODA LA ETIQUETA ANTES DE USAR.

## RESTRICCIONES DE USO

- Aplique este producto solo como se especifica en esta etiqueta.
- No contamine los alimentos para personas o animales.
- Este producto es solo para uso residencial en espacios interiores.
- No utilice en las cabinas de los aviones.
- Para uso solo cuando el edificio haya sido evacuado y no haya personas ni mascotas.
- No aplique este producto de modo que entre en contacto con trabajadores u otras personas, ya sea directamente o por arrastre. Solamente quienes lo manipulen y se encuentren protegidos pueden permanecer en el área durante la aplicación.
- No permanezca en la zona tratada. Salga inmediatamente y quédese fuera de la zona tratada hasta que los aerosoles, vapores y/o nieblas se hayan dispersado. Espere dos (2) horas después de la aplicación y después abra las ventanas, los respiraderos y las puertas por dos (2) horas más. Si se detecta algún olor, se requiere ventilación adicional.
- No lo utilice en las áreas donde hay alimentos en los establecimientos que manipulan alimentos, restaurantes u otras áreas donde se preparan o procesan alimentos comercialmente. No lo utilice en áreas de servicio cuando haya alimentos expuestos o la instalación esté abierta. Las áreas de servicio son lugares donde se sirve comida, tales como los comedores, pero sin incluir las áreas donde se pueden preparar o guardar los alimentos. Antes de aplicar como rocío de espacio, cubra o retire los alimentos y cubra las superficies de preparación de alimentos o limpie después del tratamiento y antes de usar. No aplique más de 1 vez al día.
- Antes de usar, retire las mascotas y las aves y cubra las personas.

## MANEJO DE RESISTENCIA AL PESTICIDA

El Nebulizador para chinches de cama y pulgas Hot Shot® contiene un insecticida del Grupo 7C. Cualquier población de insectos puede contener individuos con resistencia natural al Nebulizador para chinches de cama y pulgas Hot Shot y a otros insecticidas del Grupo 7C. Los individuos resistentes podrían dominar la población de insectos si este grupo de insecticidas se usa repetidamente en los mismos campos. Se deben seguir estrategias de manejo de resistencia adecuadas.

Para retrasar la resistencia al insecticida, considere:

- Evitar el uso consecutivo del Nebulizador para chinches de cama y pulgas Hot Shot o de otros insecticidas del Grupo 7C que tengan un sitio objetivo similar en la misma especie de insectos.
- Basar el uso del insecticida en un programa IPM integral.
- Monitorear la población de insectos tratada para detectar la pérdida de eficacia en el campo.
- Comunicarse con el especialista de su extensión local, asesores de cultivos certificados y/o el fabricante para el manejo de la resistencia al insecticida y/o recomendaciones de IPM para el problema de insectos nocivos resistentes y el lugar específico.

## Cómo usar este producto correctamente

Con una lata de nebulizador se puede tratar una habitación de hasta 16 pies x 16 pies con techo de 8 pies de altura, o 2,000 pies cúbicos de espacio abierto. NO use más de un nebulizador por habitación. NO lo use en espacios pequeños y cerrados, como closets y gabinetes, ni debajo de cubiertas de cocina ni mesas. NO lo use en habitaciones cuyo tamaño sea de 5 pies x 5 pies o menor. En cambio, permita que la niebla entre desde otras habitaciones. El uso de un nebulizador en un espacio cerrado puede causar que el producto explote y provoque lesiones a las personas o daños a la propiedad.

## ANTES DE APLICAR LA NIEBLA

Retire o cubra los alimentos y el agua potable expuestos antes de la aplicación. Retire o cubra platos, utensilios, superficies y equipos de preparación de alimentos o lávelos antes de usar. Retire las mascotas y las aves, cubra y apague las pceras antes de activar la lata. Apague todos los ventiladores de escape y cierre todas las ventanas, puertas y ventiladores.

**Apague TODAS las fuentes de ignición como llamas piloto (cierre las válvulas del gas), otras fuentes de fuego y aparatos eléctricos en funcionamiento que tengan ciclo de encendido y apagado (como por ejemplo, refrigeradores, termostatos, etc.).** Llame a su empresa de servicio de gas o compañía administradora si necesita ayuda con las llamas piloto. Cubra los pisos de madera y los muebles de madera que se encuentren en la zona cercana al nebulizador con papel de periódico o una tela protectora. Abra los gabinetes, alacenas, gavetas, closets y puertas en las zonas a tratar. Coloque una silla, mesa pequeña o plataforma en el centro de la habitación que se va a tratar y cubra con papel de periódico. Para mejores resultados, trate todas las áreas infestadas.

Complete y coloque la etiqueta colgante en la puerta de la zona tratada para avisar a la familia y otras personas con acceso a la zona tratada que no entren durante dos (2) horas.

## PARA COMENZAR A APLICAR LA NIEBLA

AGITE BIEN ANTES DE USAR. MANTENGA EL ENVASE EN POSICIÓN VERTICAL. Inmediatamente antes de activar la lata, complete la etiqueta colgante para la puerta escribiendo la hora y la fecha para indicar a las personas que no entren en la zona tratada por lo menos durante dos (2) horas después de la activación. Cuelgue la etiqueta colgante en la puerta de entrada. Dirija la lata lejos de la cara y los ojos cuando la active (el rocío sale hacia arriba). Para asegurar la válvula en la posición de liberación automática, presione con firmeza el botón de la válvula hasta que caiga en su lugar. Cuando lo haya activado, coloque el nebulizador en la silla, mesa pequeña o plataforma (cubierta por periódicos) en el centro de la habitación a tratar.

**NO permanezca en el área tratada. Salga inmediatamente de la casa, apartamento u otra estructura tratada.**

**NO VUELVA A ENTRAR DURANTE DOS HORAS.**

## VENTILACIÓN

Espere dos (2) horas después de la aplicación y abra las ventanas, los respiraderos y las puertas por dos (2) horas más. Si se detecta algún olor, se requiere ventilación adicional.

Nebulizador para chinches de cama y pulgas

## MATA INSECTOS:

- Chinches de cama
- Escarabajos
- Insectos del arce
- Cucarachas
- Tijeretas
- Hormigas bravas
- Pulgas (huevo/cillos)
- Pulgas (larvas)
- Pulgas
- Moscas
- Polillas voladoras
- Jejenes
- Gorgojos del trigo
- Avispones
- Piojos
- Milpiés
- Mosquitos
- Cucarachas de caño
- Hormigas faraonas
- Cochinillas
- Lepismas
- Cochinillas de la humedad
- Avispas
- Garrapatas
- Avispas con pintas amarillas

## PARA USO EN ESPACIOS INTERIORES EN:

- Apartamentos
- Áticos
- Sótanos
- Botes
- Cabañas
- Porches cerrados
- Condominios
- Cocheras
- Casas
- Cocinas
- Lugares donde duermen las mascotas
- Habitaciones

**NOTA:** Hasta el grado que sea compatible con la legislación pertinente, el comprador asume toda la responsabilidad para seguridad y uso que no estén de acuerdo con las instrucciones.

¿Preguntas o comentarios?  
Lláme al 1-800-917-5431.

Para un control más eficaz de los insectos nocivos de almacenamiento y las cucarachas, abra todas las puertas y cajones de las alacenas para que penetre mejor la niebla. Retire todos los alimentos infestados y tírelos a la basura en el exterior.

Para el control de pulgas y garrapatas, limpie completamente con la aspiradora todas las alfombras y muebles tapizados, a lo largo de los bordes inferiores, debajo de los muebles y dentro de los closets. Coloque la bolsa de la aspiradora en una bolsa de basura y tírela en la basura en el exterior. Limpie con un trapeador todas las superficies de suelo firme.

# BEDBUG & FLEA FOGGER

Nebulizador para chinches de cama y pulgas

## ALMACENAMIENTO Y ELIMINACIÓN

No contamine el agua ni los alimentos para personas o animales por medio del almacenamiento o la eliminación.

**Almacenamiento del pesticida:** Guarde este producto en un lugar fresco y seco (preferiblemente cerrado con llave), lejos del calor y del fuego y en un área que no sea accesible a los niños ni a los animales.

**Eliminación del envase:** (No lo perforo ni incinere!)

Si está vacío: Tirelo en la basura u ofrézcalo para reciclar, si existe esa opción. Si está parcialmente vacío: Llame a su servicio de eliminación de desechos más cercano para obtener instrucciones de eliminación.

## PRIMEROS AUXILIOS

**SI ENTRA EN  
CONTACTO  
CON LA PIEL  
O LA ROPA:**

- Quite la ropa contaminada.
- Lave inmediatamente la piel con abundante agua durante 15 a 20 minutos.
- Llame a un centro de control de envenenamientos o a un médico para recibir instrucciones de tratamiento.

Quando llame a un centro de control de envenenamientos o a un médico, o intente obtener tratamiento, tenga a la mano el envase o la etiqueta del producto. Para obtener información sobre este producto pesticida (incluyendo inquietudes sobre la salud, urgencias médicas o inquietudes sobre pesticidas), puede llamar al 1-800-917-5431.

## DECLARACIONES PREVENTIVAS

**RIESGOS PARA LOS SERES HUMANOS Y LOS ANIMALES DOMÉSTICOS**

**PRECAUCIÓN.** Nocivo si se absorbe por la piel. Evite el contacto con la piel, los ojos o la ropa. El uso prolongado o el contacto reiterado con la piel pueden causar reacciones alérgicas en algunas personas. Lávese muy bien las manos con agua y jabón después de manipularlo y antes de comer, beber, masticar chicle, usar tabaco o usar el baño. Quite la ropa contaminada y lávela antes de volverla a usar.

## RIESGOS FÍSICOS O QUÍMICOS

**Contenido bajo presión.** No lo use ni guarde cerca de una fuente de calor ni del fuego. No perforo ni incinere el envase. La exposición a temperaturas superiores a 130°F puede causar explosiones. Este producto contiene un ingrediente muy inflamable. Puede provocar un incendio o una explosión si no se usa adecuadamente. Siga cuidadosamente las instrucciones que se indican en esta caja en "Modo de empleo".
